

A drop-in, ready-to-go tracking solution for complete shipment visibility

Timelines works with Reelables Bluetooth labels to automate tracking across your network. Provide instant, point-to-point location traceability with confidence that deliveries will arrive on time.

- ✓ Timely notification of split shipments
- ✓ Absolute source of truth, free from human error
- ✓ 100% accurate arrival and departure timestamps

Simple

Works out of the box. No integration is required, making it easier to expand your supply chain network.

Accurate

Provide real-time location visibility directly to customers or internal support teams.

Customized

Displays on your website with your branding. No need for 3rd-party APIs.
